

PTFE Spiral Binding

SB spiral binding is designed to bind wire and cables in demanding and aggressive environments, particularly in high temperature areas. Its unique design prevents damage to wire and cable in break-out situations and is extensively used in military and civil aircraft applications.

Technical Characteristics

Continuous operating temperature	-70°C to +260°C
Melt point	+327°C
Flammability	Non-flammable

Part Numbering Information

Part No	ID Nom (mm)	Width of Strip		Weight (kg/m)
		Nom (mm)		
SB30XX	3.0	5.0		0.020
SB50XX	5.0	5.0		0.029
SB75XX	7.5	8.0		0.040
SBI00XX	10.0	8.0		0.050
SBI25XX	12.5	10.0		0.067
SB255XX	25.5	12.5		0.250

Availability

Standard colours (XX): Black (BK) and Red (RD)

Specifications: AS41088
NATO Codified
PAN 6480
Eurofighter and Tornado approved
