

# Roundit 2000NX

Roundit 2000NX is a high performance wrap-around sleeving manufactured from PPS and Nomex with an oil and water repellent treatment for the mechanical protection of wire and cable bundles. Roundit 2000NX is halogen-free and its 100% covering ratio offers excellent cut-through and abrasion resistance. The self-wrapping feature of Roundit 2000NX allows for quick and easy installation and is ideal for reworking components without disconnecting them. Roundit 2000NX is ideal for aerospace, marine, military and mass-transit applications.

## Technical Characteristics

Continuous operating temperature	-60°C to +200°C
Expansion ratio	Wrap-around

## Part Numbering Information

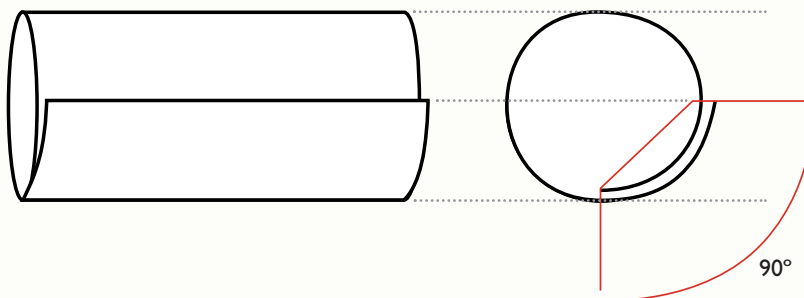

Part No	Nominal Size* (mm)	Weight (g/m)
Roundit 2000NX 5 - 5	5	13
Roundit 2000NX 8 - 5	8	18
Roundit 2000NX 13 - 5	13	26
Roundit 2000NX 19 - 5	19	38
Roundit 2000NX 25 - 5	25	47

## Availability

Standard colours: Camouflage Green (5)

A professional assembly "Roundit-Tool" is available on request for sizes 5, 8 and 13mm

**Note:** \*Nominal size is determined by wrapping the product around a mandrel of a given size to obtain 90 degrees of overlap (average value).

Also available with a 'red tracer' for weapons systems and a 'pink tracer' for fuel systems.

**cabletec**
